

Project Management for Supply Chain Planning

Business Challenge

Our client is a Fortune 200 Consumer Goods company and a global manufacturer and retailer of apparel footwear & accessories. The organization targeted to integrate supply chain planning across six geographies and streamline technology to enable growth, increase precision and reduce days in inventory.

The key challenges that faced our client were:

- Aging and disparate systems hindered integrated supply chain planning
- Disjointed supply chain planning resulted in higher inventory costs
- Systems would not scale to support growth expectations
- Varied processes created inefficiencies and inhibited flexibility
- Overlapping releases required project management expertise to managed project, technical and business resources

Client & Engagement Quick Facts

- Twelve month project; engaged with business and technical team
- Identified and executed leading project management techniques
- Led testing phase for enterprise release including QAST, SIT and UAT
- Developed key metrics and reporting practices for measuring progress
- Recommended strategic, tactical and cost reallocation adjustments to reduce overall testing phase spend

Our Solution

Kenny & Company provided its deep project management and subject matter experience in technology implementation to guide our client in achieving its project objectives. We identified and implemented key project management techniques and metrics to successfully deliver key phases in the project with a testing playbook. In addition, we performed a cost reduction analysis and developed an actionable list for leadership to explore efficiencies.

Business Benefits

Our client has a data-driven view into testing phases, enabling them to test efficiently within tight timelines. We helped our client engage with business and technical experts within the organization to test the system thoroughly and to have confidence in the solution that was being delivered. In addition, the testing playbook will enable streamlined testing of future projects.

About Us

Kenny & Company is a management consulting firm offering Strategy, Operations and Technology services to our clients.

We exist because we love to do the work. After management consulting for 20+ years at some of the largest consulting companies globally, our partners realized that when it comes to consulting, bigger doesn't always mean better.

Instead, we've created a place where our ideas and opinions are grounded in experience, analysis and facts, leading to real problem solving and real solutions – a truly collaborative experience with our clients making their business our business.

We focus on getting the work done and prefer to let our work speak for itself. When we do speak, we don't talk about ourselves, but rather about what we do for our clients. We're proud of the strong character our entire team brings, the high intensity in which we thrive, and above all, doing great work.

Who We Are

Partner Led

Our Partners are personally committed to our clients and lead every engagement.

Experience, Perspective and Passion

We average over 20 years in professional services and bring tailored approaches to every client engagement.

Focused, Collaborative, High-Impact
